

Burn Management Study Day

Learning outcomes: The Burns Management study day is aimed at guiding and supporting nurses/allied health therapists who care for patients who have suffered burns. It helps nurses and other health care professionals provide better education, support and care for their patients. The day includes sessions from expert speakers with many years of experience in the field.

Content:

- Burns assessment and initial management
- Skin grafting
- Nutrition and Burn wounds
- Dressing Products
- Scar Management
- Physiotherapy following burns
- Procedural pain management
- Socio-cultural impact of Burns
- Inhalation Burns
- Chemical and Electrical Burns
