

Burns Study Day

Learning outcomes:

The Burns Management study day is aimed at guiding and supporting nurses who care for patients who have suffered burns. It helps nurses and other health care professionals provide better education, support and care for their patients. The day includes sessions from expert speakers with many years of experience in the field.

Content:

- Socio-cultural impact of burns
- Scar management
- Burns assessment and initial management
- Skin grafting
- Physiotherapy following burns
- Nutrition and burns wounds
- Dressing products
- Chemical and electrical burns
- Procedural pain management
