

General Surgical Nursing - Fundamentals

Learning outcomes:

General Surgical Fundamentals is aimed at guiding and supporting nurses who have recently started in general surgical clinical areas. It helps nurses provide better education, support and care for their patients undergoing various general surgical procedures and/ or patients presenting with general surgical illnesses and diseases.

Content:

- Anatomy & Physiology of the Gastrointestinal Tract
- Colorectal Surgery
- Stomal Therapy
- Gallbladder Disease & Pancreatitis
- Nutrition in General Surgery
- Physiotherapy in General Surgery
- Acute Pain Management in General Surgery
- Advanced Assessment – Abdominal Assessments
