

Palliative Care Study Days: Introduction

Learning outcomes:

The introduction to palliative care study is aimed at nurses working with patients who have palliative care needs and their family/whanau. It will assist nurses in providing holistic care, managing common symptoms and caring for the dying person.

Content:

- Introduction to palliative care: Clinical assessment and management
- Pain
- Nausea
- Dyspnoea
- Communication with patients/whanau
- Recognising the dying person – use of Te Ara Whakapiri and other resources
